FULLSTACK DEVELOPER | [WWW.HUGOITU.COM.AR](http://WWW.HUGOITU.COM.AR)

## OBJECTIVE

Jr Full Stack Developer. I have 13 months of programming experience (non-work).

Looking to apply both my communicative skills and my hard skills at your company, to help you with any kind of product/service.

## SKILLS

Especially good at self-managing and bringing more solutions than problems.

- Frontend skills: Angular, React.js, Bootstrap, Tailwind.
- Backend skills: API development, Databases design, Express, Spring Boot, SQL.
- Languages: Certified English Speaker (C2 Proficient).
- Other skills: SCRUM, TypeScript, Git, OOP, manual testing.

The 100% of my jobs have been working with people, working in teams, so I have particularly good social skills.

## PROJECTS

### PORTFOLIO • MEHLABS • MARCH 2022 – OCTOBER 2022

Design, implementation, and deployment of my own portfolio, with my own domain. Achieved to implement a login system using JWT. Angular + Spring boot frameworks.

### E-COMMERCE • PENSANDO EN CASA COMPANY • MAY – SEP 2022

Developer a website for a client, including a system for adding and removing articles. It is possible to buy online with Mercado Pago.

### MANDÁMELO POR QR • MEHLABS • SEPT 2022

Deployed a web app to make it easier to send files from a phone to a computer with anything more than a QR. The app is being used by my coworkers.

### Q'RAPIDO • NO COUNTRY • SEPTEMBER 2022 – OCTOBER 2022

In 5 weeks, deployed a Fullstack product for No Country using SCRUM. We have learned a wide variety of technologies, and in a great collaborative environment, we exceeded our own capabilities. [Promotional video](#)
