## EDUCATION

B.S.  
Computer Science  
University of Pittsburgh  
September 2010 - April 2014  
Pittsburgh, PA  
GPA: 3.8

## SKILLS

Snowflake  
Python  
Tableau  
Power BI  
AWS  
Azure  
SQL  
Oracle  
Kubernetes

## WORK EXPERIENCE

### Power Performance Data Engineer

Search Discovery

May 2018 - current / New York NY

- Worked as a lead member of the Data and Cloud Engineering team
- Implemented 20+ fault-tolerant and scalable solutions using Business Intelligence platforms
- Determined and documented best ways to transform data for building visualizations
- Collaborated and contributed to identifying project risks, designing mitigation plans, and developing timeline estimates

### Mid-Level Data Engineer

Zealogs Inc

August 2016 - May 2018 / New York NY

- Architected large-scale data intelligence solutions
- Crafted 3 new architectural options and analyses around Snowflake Data Warehouse
- Translated 100+ data transformation requirements into descriptions, tools, and processes
- Created 3 documentation guides for modern ways of automating data pipeline using cloud-based tools

### Data Engineer

Dell

April 2014 - August 2016 / Washington DC

- Developed 3 new analytical designs for business problem statements
- Implemented 6 new analytical tools and techniques to improve solution and design of SDLC (Software Development Life Cycle)
- Analyzed business needs and created 3 software and hardware solution blueprints
- Worked with 3 Data Product Managers and Solution Architects to define use cases and measurable business metrics
- Worked with 2 engineering teams to check the feasibility of solutions, build stories, and architect the solution
